## 0. Introduction

This is a call for proposals for EU **action grants** in the field of “European Quantum Communication Infrastructure - The EuroQCI initiative” under the Digital strand of the **Connecting Europe Facility (CEF)**.

The regulatory framework for this EU Funding Programme is set out in:

- Regulation 2024/2509 ([EU Financial Regulation](#))
- the basic act (CEF Regulation [2021/1153](#)<sup>1</sup>).

The call is launched in accordance with the [2024-2027 Work Programme](#)<sup>2</sup> and will be managed by the European Health and Digital Executive Agency, (HaDEA) (hereafter ‘the Agency’).

The call covers the following **topic**:

### **CEF-DIG-2024-EUROQCI-WORKS – European Quantum Communication Infrastructure - The EuroQCI initiative - Works**

NOTE: The term ‘project’ used in the call documentation is synonymous to the term ‘action’ used in the CEF Regulation 2021/1153.

We invite you to read the **call documentation** on the Funding & Tenders Portal Topic carefully, and in particular this Call Document, the Model Grant Agreement, the [EU Funding & Tenders Portal Online Manual](#) and the [EU Grants AGA – Annotated Grant Agreement](#).

These documents provide clarifications and answers to questions you may have when preparing your application:

- the [Call Document](#) outlines the:
  - background, objectives, scope, activities that can be funded and the expected results (sections 1 and 2)

<sup>1</sup> Regulation (EU) 2021/1153 of the European Parliament and of the Council of 7 July 2021 establishing the Connecting Europe Facility (OJ L 249, 14.7.2021, p. 38).

<sup>2</sup> Commission Implementing Decision C(2024) 6891 final of 9 October 2024 on the financing of the Connecting Europe Facility – Digital sector and the adoption of the multiannual work programme for 2024-2027.

- timetable and available budget (sections 3 and 4)
- admissibility and eligibility conditions (including mandatory documents; sections 5 and 6)
- criteria for financial and operational capacity and exclusion (section 7)
- evaluation and award procedure (section 8)
- award criteria (section 9)
- legal and financial set-up of the Grant Agreements (section 10)
- how to submit an application (section 11)
- the Online Manual outlines the:
  - procedures to register and submit proposals online via the EU Funding & Tenders Portal ('Portal')
  - recommendations for the preparation of the application
- the AGA — Annotated Grant Agreement contains:
  - detailed annotations on all the provisions in the Grant Agreement the successful applicants will have to sign in order to obtain the grant (*including cost eligibility, payment schedule, accessory obligations, etc.*).

## 1. Background

Europe's critical infrastructures, sensitive communications, and data are vulnerable to cyber-attacks and other security threats. Advances in supercomputing and the advent of quantum computing may soon undermine modern encryption systems, threatening the security of transmitted data and secure access to remotely stored data in the long term. To keep the EU's government data and critical infrastructures safe in the medium and long term, the EU must develop new and more secure forms of encryption and devise new ways of protecting the EU's critical communication and data assets.

In order to address this challenge, and as set out in the Joint Cybersecurity Strategy<sup>3</sup>, the Commission is working with Member States and the European Space Agency towards the deployment of a secure quantum communication infrastructure (EuroQCI) spanning the entire EU, to meet the needs of national governments in providing public services of general interest<sup>4</sup>. The EuroQCI will provide an unprecedented way of securing communications and data, integrating innovative and secure quantum products and systems into conventional communication infrastructures, by enhancing them with an additional layer of security based on quantum physics.

The EuroQCI will consist of a terrestrial component relying on new and/or existing fibre communication networks linking strategic sites at national and cross-border level, complemented by a space satellite component to cross-link and cover the entire EU. As it will contribute to the security of the Union, it will ultimately use technologies developed and manufactured in the EU. For this reason, CEF Digital will encourage the use of EU technologies.

---

<sup>3</sup> [JOIN\(2020\) 18 final](#)

<sup>4</sup> <https://digital-strategy.ec.europa.eu/en/policies/european-quantum-communication-infrastructure-euroqci>

The EuroQCI's deployment is supported by the Digital Europe Programme and by the Union Secure Connectivity Programme. CEF Digital will support the interconnection of national quantum communication infrastructure networks between neighbouring countries, as well as the interconnection of the EuroQCI's terrestrial and space segments. Since 2023, EuroQCI has been part of the Union Secure Connectivity Programme<sup>5</sup>, and it will be gradually integrated to offer services under IRIS<sup>2</sup>, the new EU Secure Satellite Constellation.

In line with article 9.4. (d) of the CEF Regulation 2021/1153, this call will support the interconnection of national quantum communication infrastructure networks between Member States, including its outermost regions<sup>6</sup>, and overseas countries and territories (OCTs).<sup>7</sup>

## **2. Objectives — Scope (including digital security requirements) — Expected impact**

### **CEF-DIG-2024-EUROQCI-WORKS – European Quantum Communication Infrastructure - The EuroQCI initiative - Works**

#### *Objectives*

CEF Digital actions to co-fund the terrestrial backbone network components will be complementary to those developed through the Digital Europe Programme and will be focused on supporting cross-border links between two or more national quantum communication networks in Member States, and/or linking the EuroQCI's terrestrial and space segments.

The first services provided by EuroQCI will be based on QKD, which uses the properties of quantum physics to establish a secure encryption key at each end of a communications line in order to protect against vulnerabilities, namely eavesdropping. The first phase of the EuroQCI infrastructure deployment is focused on the deployment of terrestrial backbone components. It should aim for solutions providing end-to-end security.

The following priorities have been set to address the needs of EU's national governments and critical infrastructures supporting services of general interest:

- The deployment of the first cross-border quantum terrestrial backbone networks for interconnecting neighbouring national quantum communication infrastructures across borders, including if necessary through the deployment of "trusted nodes" (i.e. secure access points to the network which make it possible to link distant sites securely). Addressing the coexistence of QKD with conventional communications technology is encouraged, together with interoperability at the orchestration level of the network. Solutions should rely on state-of-the-art interoperability methods and standards, and address scalability, upgradability and end-to-end security. Critical components for QKD should use EU technologies when such technologies are available. The use of non-EU technologies should be fully justified.
- Interconnection with the EuroQCI's space segment<sup>8</sup>, which will be implemented via the optical ground stations and related ground equipment, serving as an interface between the EuroQCI's space components and its terrestrial segment.

---

<sup>5</sup> [Regulation \(EU\) 2023/588](#)

<sup>6</sup> As defined [here](#).

<sup>7</sup> As defined [here](#).

<sup>8</sup> Interconnection with the demonstrator satellite Eagle-1, and preparation for interconnection with the EuroQCI first generation satellite (developed under the ESA SAGA programme).

- Where relevant, the provision of fibre links between the EuroQCI and a pan-European network of Security Operation Centres (SOCs).

The management of encryption keys (Key Management System) between all elements of the EuroQCI in an end-to-end manner should also be considered. This would include managing the keys efficiently and securely, ensuring their transmission to recipients, optimal routing and monitoring of system performance, and solutions for the control layer, i.e. software-defined network (SDN).

### Scope

This topic will support the deployment of quantum communication infrastructure for connections between Member States, including OCTs:

- where the national segments of quantum communication infrastructure are already in place or where their deployment is already ongoing or operationally planned;
- and
- where a cross-border link between at least two EU countries (including outermost regions and OCTs), or a space segment interconnection is foreseen.

While it is not permitted to use RRF funding as co-funding for activities funded under this CEF Digital call, Member States may complement EuroQCI actions funded under CEF Digital (and the Digital Europe Programme) with actions funded from the RRF, as long as no risk of double funding is present. Actions funded under the Union Secure Connectivity Programme will further complement these and will, in particular, cover activities to support the further deployment of the EuroQCI's space and terrestrial infrastructure.

In case of co-funding from national funds, State aid rules apply (see section 10 of the Work Programme for details).

Proposals under this topic shall address works, with the possibility of including studies. Activities identified as studies are eligible for funding under this call only if included in the works action. This includes the preparatory work required prior to signing a contract with a supplier and application for required permits. These activities should be executed in separate work packages and can then benefit from the funding rate specific for studies part (see *section 10*).

Proposals should define the post-project ownership of the infrastructure and describe the mechanism to be used to provide services, as well as the operational relationship(s) between the different participants in the value chain for providing services.

Funding will only be open to consortia, which may include, for example, private entities (e.g. private operators) or public bodies (see *section 6*).

In order to provide applicants with the information needed to address the actions mentioned in the call scope, the specifications of optical ground stations compatible with the demonstrator satellite Eagle-1 will be made available at the following webpage: [SES Techcom \(ses-techcom.com\)](https://ses-techcom.com). Similarly, the specifications of optical ground stations compatible with the EuroQCI first generation satellite (developed under the ESA SAGA programme) will be made available at the following webpage: <https://connectivity.esa.int/projects/saga-satellite-advanced-global-architecture>. Further detailed specifications for Eagle-1, subject to a non-disclosure agreement, will be made available to successful applicants during the grant agreement preparation process.

### Digital security requirements

In addition to the criteria set out in Article 200 of the Financial Regulation, article 11 of the CEF Regulation sets out the eligibility conditions for participation to CEF and includes the possibility to restrict participation based on security reasons<sup>9</sup>.

Legal entities established, or deemed to be established, in Member States and directly or indirectly controlled by Member States or by nationals of Member States will be eligible to receive funding under this topic.

The assessment of the foreign (non-EU) control will be addressed in principle during the evaluation of proposals and at the latest during the grant agreement preparation. Participants will be requested to submit an **ownership control questionnaire** for this purpose to determine their control status. They will also be requested to submit supporting documents in order for the Commission to determine that the entities are not controlled by third countries or nationals of third countries or by entities established in third countries.

All the proposals submitted to this topic must include **security declarations** by the participating entities receiving funding for the deployment of equipment and technologies. The declarations should demonstrate that the network technologies and equipment (including software and services) funded by the project will comply with this call's security requirements, in accordance with the applicable EU law, national law, and EU guidance in place on cybersecurity<sup>10</sup>. In addition, where the project provides that network technologies and equipment funded under the project could interconnect (or are part of the same network) with other network technologies and equipment not funded under the project, in a way that could undermine the security of the networks, the requirement to comply with the security requirements of the call shall apply also to any network technology and equipment that would represent a risk as regards the security of networks.

Furthermore, the declarations will ensure that effective measures are in place to address underlying security issues<sup>11</sup>, including, wherever relevant, measures to avoid falling under non-eligible third country jurisdiction obligations, or influence. The project should also comply with the strictest cybersecurity requirements, imposed by national law, in accordance with the 5G toolbox (where applicable) and other relevant EU guidance, of all the eligible countries where the infrastructure is deployed. Finally, the

---

<sup>9</sup> Art. 11 (4) of the CEF Regulation "The work programmes may provide that legal entities established in third countries associated to the CEF in accordance with Article 5, and legal entities established in the Union but directly or indirectly controlled by third countries or nationals of third countries or by entities established in third countries, are not eligible to participate in all or some of the actions under the specific objectives set out in Article 3(2), point (c), for duly justified security reasons. In such cases, calls for proposals and calls for tenders shall be restricted to entities established, or deemed to be established, in Member States and directly or indirectly controlled by Member States or by nationals of Member States."

<sup>10</sup> Such as: the Commission Recommendation (EU) 2019/534 of 26 March 2019 Cybersecurity of 5G networks, C/2019/2335; the Report on EU Coordinated Risk Assessment of the Cybersecurity of 5G Networks of 9 October, 2019; the Council Conclusions on the Significance of 5G to the European Economy and the Need to Mitigate Security Risks Linked to 5G of 3 December, 2019; the Cybersecurity of 5G networks - EU Toolbox of Risk Mitigating Measures of 29 January, 2020; and COM(2020)50 of 29 January 2020 on Secure 5G deployment in the EU – implementing the toolbox, and Communication on implementing the 5G cybersecurity Toolbox C(2023)4049 of 15 June 2023.

<sup>11</sup> In particular, telecom operators may rely on third party entities to perform certain tasks, such as the maintenance and upgrade of the networks and software, as well as other outsourced managed services, in addition to the supply of network equipment. This may constitute a source of security risk. Thus, a thorough security assessment may also be required of the risk profile of the suppliers tasked with these services, in particular when these tasks are not performed in the EU.

declaration will confirm that the results of the CEF funded action shall remain within the beneficiary during the action.

The content of the declarations and commitments in the project proposal will be assessed during the evaluation phase.

Based on the security declarations and commitments in the proposal, as well as the evaluation carried out by independent experts, the Commission or funding body, where appropriate, may carry out a follow-up assessment of the fulfilment of the security conditions in the declaration, including with regard to beneficiaries' suppliers, and sub-contractors. Funding for actions which do not comply with the conditions related to security issues may be suspended, terminated, or reduced at any time in accordance with the Financial Regulation.

Proposals for this topic, in the digital security section in the application form, must, where applicable, address the following risk scenarios and mitigating measures as described in the [5G networks EU Toolbox of risk mitigating measures](#):

- involvement of high risk suppliers (as defined in the [EU coordinated risk assessment on cybersecurity of 5G networks](#)); restrictions applied against such suppliers for critical and sensitive key assets and measures to avoid dependency on such high risk suppliers
- measures to promote supply chain resilience and strategic autonomy (in line with the [5G networks EU Toolbox of risk mitigating measures](#))
- security requirements for your network operators (*e.g. strict access controls, rules on secure operation and monitoring, limitations on outsourcing of specific functions, etc.*)
- measures adopted to prevent unsolicited transfer to, or access by, third parties of the data (personal or non-personal) stored or transported in the context of the project.

For further background on security requirements, please see Work Programme<sup>12</sup> sections 8.2 Security, 8.3 Eligible applicants, and 8.4 Eligible applications, as well as paragraph "Strengthen cybersecurity and resilience" under section 2.2 Work programme objectives, and section 4.1.3 Quantum communication infrastructure – The EuroQCI initiative Implementation. The EuroQCI's Programme Security Instruction may also be consulted.<sup>13</sup>

Projects involving EU classified information must undergo a **security scrutiny** to authorise funding and may be made subject to specific security rules governed by Decision 2015/444 and its implementing rules and/or national rules (detailed in a Security Aspects Letter (SAL) annexed to the Grant Agreement).

These rules provide for instance that:

- projects involving information classified TRES SECRET UE/EU TOP SECRET (or equivalent) CANNOT be funded;
- classified information must be marked in accordance with the applicable security instructions in the SAL;

---

<sup>12</sup> <https://digital-strategy.ec.europa.eu/en/news-redirect/849305>

<sup>13</sup> Available at <https://digital-strategy.ec.europa.eu/en/miscellaneous/euroqci-psi-programme-security-instruction>

- information with classification levels CONFIDENTIEL UE/EU CONFIDENTIAL or above (and RESTREINT UE/ EU RESTRICTED, if required by national rules) may be:
  - created or accessed only on premises with facility security clearing (FSC) from the competent national security authority (NSA), in accordance with the national rules;
  - handled only in a secured area accredited by the competent NSA;
  - accessed and handled only by persons with valid personnel security clearance (PSC) and on a need-to-know basis;
- at the end of the grant, the classified information must either be returned or continue to be protected in accordance with the applicable rules;
- action tasks involving EU classified information (EUCI) may be subcontracted only with prior written approval from the granting authority and only to entities established in an EU Member State;
- disclosure of EUCI to third parties is subject to prior written approval from the granting authority.

Please note that, depending on the type of activity, facility security clearing may have to be provided before grant signature. The granting authority will assess the need for clearing in each case and will establish their delivery date during grant preparation. Please note that the grant agreement cannot be signed until at least one of the beneficiaries in a consortium has facility security clearing.

Further security recommendations may be added to the Grant Agreement in the form of security deliverables (*e.g. create security advisory group, limit level of detail, use fake scenario, exclude use of classified information, etc*).

Beneficiaries must ensure that their projects are not subject to national/third country security requirements that could affect implementation or put into question the award of the grant (*e.g. technology restrictions, national security classification, etc*). The granting authority must be notified immediately of any potential security issues.

### Expected impact

The call aims to:

- Enable reliable and resilient transmission of sensitive communications and data between public authorities, research organisations and critical infrastructures in Member States, including outermost regions and OCTs;
- Boost Europe’s capabilities in developing quantum-based secure optical communication networks and its capacity to protect critical public infrastructures by securing their communications and data, especially those that cross national borders and serve more than one Member State;
- Promote quantum-based secure networks and the emergence of an ecosystem that would enable a large market uptake. This will ultimately support the growth of a pan-European quantum industry that would develop new, innovative systems and technologies critical for the EU’s digital strategic autonomy.

The key performance indicators will be:

- Number of cross-border quantum interconnections;
- Number of optical ground stations deployed.

The expected result is to increase in the number of national QCI networks connected by cross-border terrestrial or satellite links and capable of demonstrating the viability of the EuroQCI as a whole. KPIs will be submitted in Application Form Part C (see Section 5. Admissibility and documents).

### 3. Available budget

The available call budget is **EUR 90 000 000**. This budget might be increased provided that the total additional budget cumulatively allocated to the topic across all calls of the work programme is lower than 20% of the total budget of the multiannual plan.

We reserve the right not to award all available funds, depending on the proposals received and the results of the evaluation.

### 4. Timetable and deadlines

Timetable and deadlines (indicative)	
Call opening:	22 October 2024
<u>Deadline for submission:</u>	<u>13 February 2025 – 17:00:00 CET</u>
Evaluation:	March – May 2025
Information on evaluation results:	Summer 2025
GA signature:	Autumn 2025

### 5. Admissibility and documents

Proposals must be submitted before the **call deadline** (see *timetable section 4*).

Proposals must be submitted **electronically** via the Funding & Tenders Portal Electronic Submission System (accessible via the Topic page in the [Search Funding & Tenders](#) section). Paper submissions are NOT possible.

Proposals (including annexes and supporting documents) must be submitted using the forms provided *inside* the Submission System (⚠ NOT the documents available on the Topic page — they are only for information).

Proposals must be **complete** and contain all the requested information and all required annexes and supporting documents:

- Application Form Part A — contains administrative information about the participants (future coordinator, beneficiaries and affiliated entities) and the summarised budget for the project (*to be filled in directly online*)
- Application Form Part B — contains the technical description of the project (*to be downloaded from the Portal Submission System, completed and then assembled and re-uploaded*)
- Part C — contains the project’s contribution to EU programme key performance indicators (*to be filled in directly online*)
- **mandatory annexes and supporting documents** (*to be uploaded*)
  - detailed budget table per WP (*template available in the Submission System*)

- activity reports of last year (unless exempted from operational capacity check; see *section 7*)
- list of previous projects (key projects for the last 4 years) (*template available in Part B*)
- timetable/Gantt chart (*template available in the Submission System*)
- letters of support (MS agreement) from the authority in the relevant Member State(s)<sup>14</sup> (*template available in the Submission System; the list of MS contact points is published in the [HaDEA website](#)*)
- ownership control questionnaire, including for associated partners and subcontractors<sup>15</sup> (*template available in the Submission System*)
- security declarations signed by the participating entities
- other annexes.

Please note that the amounts entered into the summarised budget table (filled in directly online) must correspond to the amounts calculated in the detailed budget table. In case of discrepancies, the amounts in the online summarised budget table will prevail.

At proposal submission, you will have to confirm that you have the **mandate to act** for all applicants. Moreover, you will have to confirm that the information in the application is correct and complete and that the participants comply with the conditions for receiving EU funding (especially eligibility, financial and operational capacity, exclusion, etc). Before signing the grant, each beneficiary and affiliated entity will have to confirm this again by signing a declaration of honour (DoH). Proposals without full support will be rejected.

Your application must be **readable, accessible and printable**.

Proposals are limited to maximum **120 pages** (Part B). Evaluators will not consider any additional pages.

You may be asked at a later stage for further documents (*for legal entity validation, financial capacity check, bank account validation, etc.*).

 For more information about the submission process (including IT aspects), consult the [Online Manual](#).

## 6. Eligibility

### Eligible participants (eligible countries)

In order to be eligible, the applicants (beneficiaries and affiliated entities) must:

- be legal entities (public or private bodies)
- be established in one of the eligible countries, i.e.:
  - EU Member States (including overseas countries and territories (OCTs))

---

<sup>14</sup> **In the letter (in section: Additional comments) the following statement must be added: “The consortium is responsible for developing the cross-border network concerned”.**

<sup>15</sup> If not provided at submission stage, the ownership control questionnaire for subcontractors will be requested later during the grant agreement implementation in order to perform the ownership control assessment.

Beneficiaries and affiliated entities must register in the [Participant Register](#) — before submitting the proposal — and will have to be validated by the Central Validation Service (REA Validation). For the validation, they will be requested to upload documents showing legal status and origin.

Other entities may participate in other consortium roles, such as associated partners, subcontractors, third parties giving in-kind contributions, etc (*see section 13*).

Please note however that this call is subject to restrictions due to security reasons. This means that only EU Member States are eligible. Moreover:

- participation in any capacity (as beneficiary, affiliated entity, associated partner, subcontractor or recipient of financial support to third parties) is limited to entities from eligible countries
- project activities (included subcontracted work) must take place in eligible countries (*see section geographic location below and section 10*)
- the Grant Agreement may provide for IPR restrictions (*see section 10*).

### Specific cases

*Natural persons* — Natural persons are NOT eligible (with the exception of self-employed persons, i.e. sole traders, where the company does not have legal personality separate from that of the natural person).

*International organisations* — International organisations<sup>16</sup> are eligible. The rules on eligible countries do not apply to them.

*Entities without legal personality* — Entities which do not have legal personality under their national law may exceptionally participate, provided that their representatives have the capacity to undertake legal obligations on their behalf, and offer guarantees for the protection of the EU financial interests equivalent to that offered by legal persons<sup>17</sup>.

*EU bodies* — EU bodies (with the exception of the European Commission Joint Research Centre) can NOT be part of the consortium.

*EU restrictive measures* — Special rules apply for certain entities (*e.g.* entities subject to [EU restrictive measures](#) under Article 29 of the Treaty on the European Union (TEU) and Article 215 of the Treaty on the Functioning of the EU (TFEU)<sup>18</sup>). Such entities are not eligible to participate in any capacity, including as beneficiaries, affiliated entities, associated partners, subcontractors or recipients of financial support to third parties (if any).

Following the [Council Implementing Decision \(EU\) 2022/2506](#), as of 16th December 2022, no legal commitments (including the grant agreement itself as well as subcontracts, purchase contracts, financial support to third parties etc.) can be signed with Hungarian public interest trusts established under Hungarian Act IX of 2021 or any entity they maintain. Affected entities may continue to apply to calls for proposals. However, in case the Council measures are not lifted, such entities are not eligible to participate in any funded role (beneficiaries, affiliated entities, subcontractors,

---

<sup>16</sup> An 'international organisation' means an intergovernmental organisation (other than the EU) with legal personality under international public law (including specialised agencies — with or without legal personality — set up by international organisations and referred to in Article 159(1) EU Financial Regulation [2024/2509](#).

<sup>17</sup> See Article 200(2)(c) EU Financial Regulation [2024/2509](#).

<sup>18</sup> Please note that the EU Official Journal contains the official list and, in case of conflict, its content prevails over that of the [EU Sanctions Map](#).

recipients of financial support to third parties). In this case, co-applicants will be invited to remove or replace that entity and/or to change its status into associated partner. Tasks and budget may be redistributed accordingly”.

 For more information, see [Rules for Legal Entity Validation, LEAR Appointment and Financial Capacity Assessment](#).

### Consortium composition

Proposals must be submitted by a minimum of two applicants (beneficiaries; not affiliated entities).

In the case of terrestrial connections, proposals must be submitted by a minimum of two applicants (beneficiaries; not affiliated entities) from a minimum of two different eligible countries.

### Eligible activities

Eligible activities are the ones set out in section 2 above.

Projects should take into account the results of projects supported by other EU funding programmes. The complementarities must be described in the project proposals (Part B of the Application Form).

Projects must comply with EU policy interests and priorities (*such as environment, social, security, industrial and trade policy, etc.*).

Financial support to third parties is not allowed.

### Geographic location (target countries)

Proposals must relate to activities taking place in the eligible countries (*see above*).

### Duration

Projects should normally be up to 42 months (extensions are possible, if duly justified and through an amendment).

### Project budget

The maximum requested grant amount is expected to be around EUR 5 000 000 per project. This amount may be exceeded if duly justified by the applicants.

The grant awarded may be lower than the amount requested.

## **7. Financial and operational capacity and exclusion**

### Financial capacity

Applicants must have **stable and sufficient resources** to successfully implement the projects and contribute their share. Organisations participating in several projects must have sufficient capacity to implement all these projects.

The financial capacity check will be carried out on the basis of the documents you will be requested to upload in the [Participant Register](#) during grant preparation (*e.g. profit and loss account and balance sheet, business plan, audit report produced by an approved external auditor, certifying the accounts for the last closed financial year, etc*). The analysis will be based on neutral financial indicators, but will also take into account other aspects, such as dependency on EU funding and deficit and revenue in previous years.

The check will normally be done for all beneficiaries, except:

- public bodies (entities established as public body under national law, including local, regional or national authorities) or international organisations
- if the individual requested grant amount is not more than EUR 60 000.

If needed, it may also be done for affiliated entities.

If we consider that your financial capacity is not satisfactory, we may require:

- further information
  - an enhanced financial responsibility regime, i.e. joint and several responsibility for all beneficiaries or joint and several liability of affiliated entities (*see below, section 10*)
  - prefinancing paid in instalments
  - (one or more) prefinancing guarantees (*see below, section 10*)
- or
- propose no prefinancing
  - request that you are replaced or, if needed, reject the entire proposal.

 For more information, see [Rules for Legal Entity Validation, LEAR Appointment and Financial Capacity Assessment](#).

### Operational capacity

Applicants must have the **know-how, qualifications** and **resources** to successfully implement the projects and contribute their share (including sufficient experience in projects of comparable size and nature).

This capacity will be assessed together with the 'Quality' award criterion, on the basis of the competence and experience of the applicants and their project teams, including operational resources (human, technical and other) or, exceptionally, the measures proposed to obtain it by the time the task implementation starts.

If the evaluation of the award criterion is positive, the applicants are considered to have sufficient operational capacity.

Applicants will have to show their operational capacity via the following information:

- description of the consortium participants
- applicants' activity reports of the last year
- list of previous projects (key projects for the last 4 years).

Additional supporting documents may be requested, if needed to confirm the operational capacity of any applicant.

Public bodies, Member State organisations and international organisations are exempted from the operational capacity check.

### Exclusion

Applicants which are subject to an **EU exclusion decision** or in one of the following **exclusion situations** that bar them from receiving EU funding can NOT participate<sup>19</sup>:

- bankruptcy, winding up, affairs administered by the courts, arrangement with creditors, suspended business activities or other similar procedures (including procedures for persons with unlimited liability for the applicant's debts)
- in breach of social security or tax obligations (including if done by persons with unlimited liability for the applicant's debts)
- guilty of grave professional misconduct<sup>20</sup> (including if done by persons having powers of representation, decision-making or control, beneficial owners or persons who are essential for the award/implementation of the grant)
- committed fraud, corruption, links to a criminal organisation, money laundering, terrorism-related crimes (including terrorism financing), child labour or human trafficking (including if done by persons having powers of representation, decision-making or control, beneficial owners or persons who are essential for the award/implementation of the grant)
- shown significant deficiencies in complying with main obligations under an EU procurement contract, grant agreement, prize, expert contract, or similar (including if done by persons having powers of representation, decision-making or control, beneficial owners or persons who are essential for the award/implementation of the grant)
- guilty of irregularities within the meaning of Article 1(2) of EU Regulation [2988/95](#) (including if done by persons having powers of representation, decision-making or control, beneficial owners or persons who are essential for the award/implementation of the grant)
- created under a different jurisdiction with the intent to circumvent fiscal, social or other legal obligations in the country of origin or created another entity with this purpose (including if done by persons having powers of representation, decision-making or control, beneficial owners or persons who are essential for the award/implementation of the grant).

Applicants will also be rejected if it turns out that<sup>21</sup>:

- during the award procedure they misrepresented information required as a condition for participating or failed to supply that information
- they were previously involved in the preparation of the call and this entails a distortion of competition that cannot be remedied otherwise (conflict of interest).

## **8. Evaluation and award procedure**

The proposals will have to follow the **standard submission and evaluation procedure** (one-stage submission + one-step evaluation).

An **evaluation committee** (assisted by independent outside experts) will assess all applications. Proposals will first be checked for formal requirements (admissibility, and eligibility, *see sections 5 and 6*). Proposals found admissible and eligible will be

---

<sup>19</sup> See Articles 138 and 143 of EU Financial Regulation [2024/2509](#).

<sup>20</sup> Professional misconduct includes: violation of ethical standards of the profession, wrongful conduct with impact on professional credibility, false declarations/misrepresentation of information, participation in a cartel or other agreement distorting competition, violation of IPR, attempting to influence decision-making processes or obtain confidential information from public authorities to gain advantage.

<sup>21</sup> See Article 143 EU Financial Regulation [2024/2509](#).

evaluated against the operational capacity and award criteria (3 phases: individual evaluation, consensus phase and panel review) and then ranked according to their scores (see sections 7 and 9).

For proposals with the same score (within a topic or budget envelope) a **priority order** will be determined according to the following approach:

1. Score obtained under the 'Priority and urgency' criterion
2. Score obtained under the 'Maturity' criterion
3. Score obtained under the 'Catalytic effect' criterion
4. Score obtained under the 'Impact' criterion
5. Score obtained under the 'Quality' criterion.

All proposals will be informed about the evaluation result (**evaluation result letter**). Successful proposals will be invited for grant preparation; the other ones will be put on the reserve list or rejected.

 No commitment for funding — Invitation to grant preparation does NOT constitute a formal commitment for funding. We will still need to make various legal checks before grant award: *legal entity validation, financial capacity, exclusion check, etc.*

**Grant preparation** will involve a dialogue in order to fine-tune technical or financial aspects of the project and may require extra information from your side. It may also include adjustments to the proposal to address recommendations of the evaluation committee or other concerns. Compliance will be a pre-condition for signing the grant.

If you believe that the evaluation procedure was flawed, you can submit a **complaint** (following the deadlines and procedures set out in the evaluation result letter). Please note that notifications which have not been opened within 10 days after sending will be considered to have been accessed and that deadlines will be counted from opening/access (see also [Funding & Tenders Portal Terms and Conditions](#)). Please also be aware that for complaints submitted electronically, there may be character limitations.

## 9. Award criteria

The **award criteria** for this call are as follows:

- **Priority and urgency:** evaluating correspondence of the proposal with the sectoral policy objectives and priorities, measuring its EU added-value and where applicable assessing the possible synergies with other sectors or CEF Digital topics and, where applicable, ensuring a geographical balance of the CEF digital support in the respective area. (5 points)
- **Maturity:** assessing the maturity of the action in the project development. The criterion will measure, among others: i) the readiness/ability of the project to start by the proposed start date and to complete by the proposed end date, ii) the status and planning of the contracting procedures and of the necessary permits, and iii) information on the financial availability needed to complement the CEF investment. (5 points)
- **Quality:** evaluating the soundness of the implementation plan proposed, both from the technical and financial point of view, the architecture and design approach, the organisational structures put in place (or foreseen) for the implementation, the risk analysis, the control procedures and quality

management and the communication strategy of the applicant. Moreover, when applicable, it will also assess the information related to the operations/maintenance strategy proposed for the completed project. (5 points)

- **Impact:** assessing, when applicable, the economic, social, competition and environmental impact and other relevant externalities, in addition to the innovation and digitalisation, safety and interoperability and accessibility aspects of the proposal, as well as its cross-border dimension. (5 points)
- **Catalytic effect:** evaluating the effect of the EU financial assistance on the realisation of the project, for instance by i) overcoming a financial gap generated by insufficient commercial viability and high upfront costs; or ii) increasing the capacity to mobilise differentiated investments sources and address the lack of market finance; or iii) improving the quality or the scope/size of the project; or iv) accelerating the overall investment plan. (5 points).

Award criteria	Minimum pass score	Maximum score
Priority and urgency	3	5
Maturity	3	5
Quality	3	5
Impact	3	5
Catalytic effect	3	5
<b>Overall (pass) scores</b>	<b>15</b>	<b>25</b>

Maximum points: 25 points.

Individual thresholds per criterion: 3/5, 3/5, 3/5, 3/5 and 3/5 points.

Overall threshold: 15 points.

Proposals that pass the individual thresholds AND the overall threshold will be considered for funding — within the limits of the available budget (i.e. up to the budget ceiling). Other proposals will be rejected.

## 10. Legal and financial set-up of the Grant Agreements

If you pass evaluation, your project will be invited for grant preparation, where you will be asked to prepare the Grant Agreement together with the EU Project Officer.

This Grant Agreement will set the framework for your grant and its terms and conditions, in particular concerning deliverables, reporting and payments.

The Model Grant Agreement that will be used (and all other relevant templates and guidance documents) can be found on [Portal Reference Documents](#).

### Starting date and project duration

The project starting date and duration will be fixed in the Grant Agreement (*Data Sheet, point 1*). Normally the starting date will be after grant signature. A retroactive starting

date can be granted exceptionally for duly justified reasons— but never earlier than the proposal submission date.

Project duration: *see section 6 above.*

### Milestones and deliverables

The milestones and deliverables for each project will be managed through the Portal Grant Management System and will be reflected in Annex 1 of the Grant Agreement.

Beneficiaries will also be invited to check and update information about output indicators.

### Form of grant, funding rate and maximum grant amount

The grant parameters (*maximum grant amount, funding rate, total eligible costs, etc*) will be fixed in the Grant Agreement (*Data Sheet, point 3 and art 5*).

Project budget (maximum grant amount): *see section 6 above.*

The grant will be a budget-based mixed actual cost grant (actual costs, with unit cost and flat-rate elements). This means that it will reimburse ONLY certain types of costs (eligible costs) and costs that were *actually* incurred for your project (NOT the *budgeted* costs). For unit costs and flat-rates, you can charge the amounts calculated as explained in the Grant Agreement (*see art 6 and Annex 2 and 2a*).

The costs will be reimbursed at the funding rates fixed in the Grant Agreement (maximum **50%** for the costs of studies, maximum **70%** for the costs of works in outermost regions, and maximum **30%** for all other costs categories ('project funding rate')).

You can apply for a higher project funding rate if your project concerns:

- strong cross-border dimension including the space segment: 50%

Grants may NOT produce a profit (i.e. surplus of revenues + EU grant over costs). For-profit organisations must declare their revenues and, if there is a profit, we will deduct it from the final grant amount (*see art 22.3*).

Moreover, please be aware that the final grant amount may be reduced in case of non-compliance with the Grant Agreement (*e.g. improper implementation, breach of obligations, etc*).

### Budget categories and cost eligibility rules

The budget categories and cost eligibility rules are fixed in the Grant Agreement (*Data Sheet, point 3, art 6 and Annex 2*).

*Budget categories for this call:*

- A. Personnel costs
  - A.1 Employees
  - A.2 Natural persons under direct contract
  - A.3 Seconded persons
  - A.4 SME owners and natural person beneficiaries
- B. Subcontracting costs
- C. Purchase costs

- C.1 Travel and subsistence
- C.2 Equipment
- C.3 Other goods, works and services
- D. Other cost categories
  - D.1 Financial support to third parties
  - D.2 Studies
  - D.3 Synergetic elements
  - D.4 Works in outermost regions
- E. Indirect costs

*Specific cost eligibility conditions for this call:*

- personnel costs:
  - average personnel costs (unit cost according to usual cost accounting practices): Yes
  - SME owner/natural person unit cost<sup>22</sup> : Yes
- subcontracting costs:
  - country restrictions for subcontracting costs: Yes, subcontracted work must be performed in the eligible countries or target countries
- travel and subsistence unit cost<sup>23</sup>: No (only actual costs)
- equipment costs: full cost
- other cost categories:
  - costs for financial support to third parties: not allowed
  - studies: Yes
  - synergetic elements: Yes
  - works in outermost regions: Yes
  - land purchases: No
- indirect cost flat-rate :0% of the eligible direct costs (categories A-D, except volunteers costs and exempted specific cost categories, if any)
- VAT: VAT is NOT eligible
- other:
  - in-kind contributions for free are allowed, but cost-neutral, i.e. they cannot be declared as cost
  - project websites: communication costs for presenting the project on the participants' websites or social media accounts are eligible; costs for *separate* project websites are not eligible
  - eligible cost country restrictions: Yes, only costs for activities carried out in eligible countries or target countries are eligible

---

<sup>22</sup> Commission [Decision](#) of 20 October 2020 authorising the use of unit costs for the personnel costs of the owners of small and medium-sized enterprises and beneficiaries that are natural persons not receiving a salary for the work carried out by themselves under an action or work programme (C(2020)7115).

<sup>23</sup> Commission [Decision](#) of 12 January 2021 authorising the use of unit costs for travel, accommodation and subsistence costs under an action or work programme under the 2021-2027 multi-annual financial framework (C(2021)35).

- other ineligible costs: Yes, costs related to purchase of land

 Please be aware that in case of significant changes to the circumstances that have an impact on the project budget, you may be asked to request an amendment to reduce the maximum grant amount. If you do not comply with this request, we may have to terminate the grant and reduce it from our side (*see art 28 and 32*).

 Similarly, you may be asked to request an amendment to reduce the maximum grant amount, if your project encounters major delays during the project implementation. If you do not comply with this request, we may have to terminate the grant (*see art 28 and 32*).

### Reporting and payment arrangements

The reporting and payment arrangements are fixed in the Grant Agreement (*Data Sheet, point 4 and art 21 and 22*).

After grant signature, you will normally receive a **prefinancing** to start working on the project. The amount will be established based on the grant type or estimated project duration at the time of grant signature and will be up to 30% of the maximum grant amount. The prefinancing will be paid 30 days from entry into force/financial guarantee (if required — whichever is the latest).

There will be one or more **interim payments** (with detailed cost reporting).

**Payment of the balance:** At the end of the project, we will calculate your final grant amount. If the total of earlier payments is higher than the final grant amount, we will ask you (your coordinator) to pay back the difference (recovery).

All payments will be made to the coordinator.

 Please be aware that payments will be automatically lowered if one of your consortium members has outstanding debts towards the EU (granting authority or other EU bodies). Such debts will be offset by us — in line with the conditions set out in the Grant Agreement (*see art 22*).

Please also note that you are responsible for keeping records on all the work done and the costs declared.

### Prefinancing guarantees

If a prefinancing guarantee is required, it will be fixed in the Grant Agreement (*Data Sheet, point 4*). The amount will be set during grant preparation and it will normally be equal or lower than the prefinancing for your grant.

The guarantee should be in euro and issued by an approved bank/financial institution established in an EU Member State. If you are established in a non-EU country and would like to provide a guarantee from a bank/financial institution in your country, please contact us (this may be exceptionally accepted, if it offers equivalent security).

Amounts blocked in bank accounts will NOT be accepted as financial guarantees.

Prefinancing guarantees are normally requested from the coordinator, for the consortium. They must be provided during grant preparation, in time to make the prefinancing (scanned copy via Portal AND original by post).

If agreed with us, the bank guarantee may be replaced by a guarantee from a third party.

The guarantee will be released at the end of the grant, in accordance with the conditions laid down in the Grant Agreement (*art 23*).

### Certificates

Depending on the type of action, size of grant amount and type of beneficiaries, you may be requested to submit different certificates. The types, schedules and thresholds for each certificate are fixed in the Grant Agreement (*Data Sheet, point 4 and art 24*).

### Liability regime for recoveries

The liability regime for recoveries will be fixed in the Grant Agreement (*Data Sheet point 4.4 and art 22*).

For beneficiaries, it is one of the following:

- limited joint and several liability with individual ceilings — *each beneficiary up to their maximum grant amount*
- unconditional joint and several liability — *each beneficiary up to the maximum grant amount for the action*

or

- individual financial responsibility — *each beneficiary only for their own debts*.

In addition, the granting authority may require joint and several liability of affiliated entities (with their beneficiary).

### Provisions concerning the project implementation

Security rules: *see Model Grant Agreement (art 13 and Annex 5)*

IPR rules: *see Model Grant Agreement (art 16 and Annex 5)*:

- rights of use on results: Yes

Communication, dissemination and visibility of funding: *see Model Grant Agreement (art 17 and Annex 5)*:

- communication and dissemination plan: No
- additional communication and dissemination activities: Yes
- special logos: No

Specific rules for carrying out the action: *see Model Grant Agreement (art 18 and Annex 5)*:

- Member State information: Yes
- specific rules for digital infrastructure projects: Yes
- specific rules for ATM common projects: No
- durability: No<sup>24</sup>
- specific rules for blending operations: No

---

<sup>24</sup> Beneficiaries are exempted by the Granting Authority from the durability obligation, acknowledging the current status of EuroQCI technology (see [Model Grant Agreement](#), Art. 18.1 and Annex 5 Specific rules).

- special obligations linked to restrictions due to security: Yes
- implementation in case of restrictions due to security: Yes

### Other specificities

n/a

### Non-compliance and breach of contract

The Grant Agreement (chapter 5) provides for the measures we may take in case of breach of contract (and other non-compliance issues).

 For more information, see [AGA — Annotated Grant Agreement](#).

## **11. How to submit an application**

All proposals must be submitted directly online via the Funding & Tenders Portal Electronic Submission System. Paper applications are NOT accepted.

Submission is a 2-step process:

### **a) create a user account and register your organisation**

To use the Submission System (the only way to apply), all participants need to [create an EU Login user account](#).

Once you have an EU Login account, you can [register your organisation](#) in the Participant Register. When your registration is finalised, you will receive a 9-digit participant identification code (PIC).

### **b) submit the proposal**

Access the Electronic Submission System via the Topic page in the [Search Funding & Tenders](#) section (or, for calls sent by invitation to submit a proposal, through the link provided in the invitation letter).

Submit your proposal in 4 parts, as follows:

- Part A includes administrative information about the applicant organisations (future coordinator, beneficiaries, affiliated entities and associated partners) and the summarised budget for the proposal. Fill it in directly online
- Part B (description of the action) covers the technical content of the proposal. Download the mandatory word template from the Submission System, fill it in and upload it as a PDF file
- Part C containing the project's contribution to EU programme key performance indicators. To be filled in directly online.
- Annexes (see section 5). Upload them as PDF file (single or multiple depending on the slots; the budget table can be uploaded as Excel file).

The proposal must keep to the **page limits** (see section 5); excess pages will be disregarded.

Documents must be uploaded to the **right category** in the Submission System otherwise the proposal might be considered incomplete and thus inadmissible.

The proposal must be submitted **before the call deadline** (see *section 4*). After this deadline, the system is closed and proposals can no longer be submitted.

Once the proposal is submitted, you will receive a **confirmation e-mail** (with date and time of your application). If you do not receive this confirmation e-mail, it means your proposal has NOT been submitted. If you believe this is due to a fault in the Submission System, you should immediately file a complaint via the [IT Helpdesk webform](#), explaining the circumstances and attaching a copy of the proposal (and, if possible, screenshots to show what happened).

Details on processes and procedures are described in the [Online Manual](#). The Online Manual also contains the links to FAQs and detailed instructions regarding the Portal Electronic Exchange System.

## 12. Help

As far as possible, ***please try to find the answers you need yourself***, in this and the other documentation (we have limited resources for handling direct enquiries):

- [Online Manual](#)
- Topic Q&A on the Topic page (for call-specific questions in open calls; not applicable for actions by invitation)
- [Portal FAQ](#) (for general questions)
- call information on the [HaDEA website](#).

Please also consult the Topic page regularly, since we will use it to publish call updates.

### Contact

For individual questions on the Portal Submission System, please contact the [IT Helpdesk](#).

Non-IT related questions should be sent to the following email address: [HADEA-CEF-DIGITAL-CALLS@ec.europa.eu](mailto:HADEA-CEF-DIGITAL-CALLS@ec.europa.eu). Please submit your questions<sup>25</sup> no later than 10 days before the submission deadline. Questions received after 4 February 2025 may not be answered.

Please clearly indicate the reference of the call and topic to which your question relates (*see cover page*).

---

<sup>25</sup> Interested applicants are invited to see first if a question is already answered from the existing Topic Q&A published on the Funding & Tenders Portal.

## 13. Important

### IMPORTANT

- **Don't wait until the end** — Complete your application sufficiently in advance of the deadline to avoid any last minute **technical problems**. Problems due to last minute submissions (*e.g. congestion, etc.*) will be entirely at your risk. Call deadlines can NOT be extended.
- **Consult** the Portal Topic page regularly. We will use it to publish updates and additional information on the call (call and topic updates).
- **Funding & Tenders Portal Electronic Exchange System** — By submitting the application, all participants **accept** to use the electronic exchange system in accordance with the [Portal Terms & Conditions](#).
- **Registration** — Before submitting the application, all beneficiaries, affiliated entities and associated partners must be registered in the [Participant Register](#). The participant identification code (PIC) (one per participant) is mandatory for the Application Form.
- **Consortium roles** — When setting up your consortium, you should think of organisations that help you reach objectives and solve problems.

The roles should be attributed according to the level of participation in the project. Main participants should participate as **beneficiaries** or **affiliated entities**; other entities can participate as associated partners, subcontractors, third parties giving in-kind contributions. **Associated partners** and third parties giving in-kind contributions should bear their own costs (they will not become formal recipients of EU funding).

- **Coordinator** — In multi-beneficiary grants, the beneficiaries participate as consortium (group of beneficiaries). They will have to choose a coordinator, who will take care of the project management and coordination and will represent the consortium towards the granting authority. In mono-beneficiary grants, the single beneficiary will automatically be coordinator.
- **Affiliated entities** — Applicants may participate with affiliated entities (i.e. entities linked to a beneficiary which participate in the action with similar rights and obligations as the beneficiaries, but do not sign the grant and therefore do not become beneficiaries themselves). They will get a part of the grant money and must therefore comply with all the call conditions and be validated (just like beneficiaries); but they do not count towards the minimum eligibility criteria for consortium composition (if any).
- **Associated partners** — Applicants may participate with associated partners (i.e. partner organisations which participate in the action but without the right to get grant money). They participate without funding and therefore do not need to be validated.
- **Consortium agreement** — For practical and legal reasons it is recommended to set up internal arrangements that allow you to deal with exceptional or unforeseen circumstances (in all cases, even if not mandatory under the Grant Agreement). The consortium agreement also gives you the possibility to redistribute the grant money according to your own consortium-internal principles and parameters (for instance, one beneficiary can reattribute its grant money to another beneficiary). The consortium agreement thus allows you to customise the EU grant to the needs inside your consortium and can also help to protect you in case of disputes.

- **Balanced project budget** — Grant applications must ensure a balanced project budget and sufficient other resources to implement the project successfully (*e.g. own contributions, income generated by the action, financial contributions from third parties, etc*). You may be requested to lower your estimated costs, if they are ineligible (including excessive).
- **Completed/ongoing projects** — Proposals for projects that have already been completed will be rejected; proposals for projects that have already started will be assessed on a case-by-case basis (in this case, no costs can be reimbursed for activities that took place before the project starting date/proposal submission).
- **No-profit rule** — Grants may NOT give a profit (i.e. surplus of revenues + EU grant over costs). This will be checked by us at the end of the project.
- **No cumulation of funding/no double funding** — It is strictly prohibited to cumulate funding from the EU budget (except under 'EU Synergies actions'). Outside such Synergies actions, any given action may receive only ONE grant from the EU budget and cost items may under NO circumstances be declared under two EU grants. If you would like to nonetheless benefit from different EU funding opportunities, projects must be designed as different actions, clearly delineated and separated for each grant (without overlaps).
- **Combination with EU operating grants** — Combination with EU operating grants is possible, if the project remains outside the operating grant work programme and you make sure that cost items are clearly separated in your accounting and NOT declared twice (see [AGA — Annotated Grant Agreement, art 6.2.E](#)).
- **Multiple proposals** — Applicants may submit more than one proposal for *different* projects under the same call (and be awarded funding for them).  
Organisations may participate in several proposals.  
BUT: if there are several proposals for *very similar* projects, only one application will be accepted and evaluated; the applicants will be asked to withdraw the others (or they will be rejected).
- **Resubmission** — Proposals may be changed and re-submitted until the deadline for submission.
- **Rejection** — By submitting the application, all applicants accept the call conditions set out in this this Call Document (and the documents it refers to). Proposals that do not comply with all the call conditions will be **rejected**. This applies also to applicants: All applicants need to fulfil the criteria; if any one of them doesn't, they must be replaced or the entire proposal will be rejected.
- **Cancellation** — There may be circumstances which may require the cancellation of the call. In this case, you will be informed via a call or topic update. Please note that cancellations are without entitlement to compensation.
- **Language** — You can submit your proposal in any official EU language (project abstract/summary should however always be in English). For reasons of efficiency, we strongly advise you to use English for the entire application. If you need the call documentation in another official EU language, please submit a request within 10 days after call publication (for the contact information, see *section 12*).

- **Transparency** — In accordance with Article 38 of the [EU Financial Regulation](#), information about EU grants awarded is published each year on the [Europa website](#).

This includes:

- beneficiary names
- beneficiary addresses
- the purpose for which the grant was awarded
- the maximum amount awarded.

The publication can exceptionally be waived (on reasoned and duly substantiated request), if there is a risk that the disclosure could jeopardise your rights and freedoms under the EU Charter of Fundamental Rights or harm your commercial interests.

- **Data protection** — The submission of a proposal under this call involves the collection, use and processing of personal data. This data will be processed in accordance with the applicable legal framework. It will be processed solely for the purpose of evaluating your proposal, subsequent management of your grant and, if needed, programme monitoring, evaluation and communication. Details are explained in the [Funding & Tenders Portal Privacy Statement](#).
